EDUCATION

BMS Institute of Technology and Management (BMSIT), Bengaluru

Currently studying

B.E. in Computer Science and Engineering.

PROJECTS

Smart Hostel Management System | PHP, MySQL, Bootstrap, Docker

- Built separate admin and student workflows: room allocation, dues with proof upload, complaints, visitor logs.
- Wrote the MySQL schema: foreign keys, two views, a fee stored procedure, triggers for occupancy and payments.
- Set up the app, database and phpMyAdmin in Docker Compose so it starts with one command.

github.com/nishan9-99/smart-hostel-management-system

Quest HUD | C++17

- Wrote a terminal task tracker in a single C++17 file. Tasks are quests ranked D to S that pay 10 to 200 XP.
- Added levels, daily streaks and a plain-text save file, plus an interactive menu and one-shot commands for scripts.
- Released under the MIT license with build steps for Linux, macOS and Windows.

github.com/nishan9-99/quest-hud

Neon Rift: Rift Protocol (v2.0) | HTML5 Canvas, JavaScript, Web Audio

- Built a neon roguelite survival shooter in vanilla HTML5 Canvas and JavaScript, with no build step or dependencies.
- Made 5 weapons, 4 ships, 7 enemy types with elites, a boss every 5 waves, and 4 arenas with random events.
- Added XP upgrade cards, a shop, 12 achievements, saved progress, touch controls and synthesized audio.

github.com/nishan9-99/neon-rift

BioVerse | React, Vite, Tailwind CSS, Node.js, Express, MongoDB, Docker

- Built a full-stack anatomy app: organ viewer for 6 body systems, quizzes, flashcards, 8-disease explorer.
- Added an AI tutor that falls back to built-in answers when no API key is set, and three physiology lab simulations.
- Wrote JWT sign-in with hashed passwords and rate-limited routes, and set the stack up in Docker Compose.

github.com/nishan9-99/bioverse

LYRIVO | Firebase, JavaScript (in progress)

A music streaming app in development: sign-in, playlists and playback.

SKILLS

Languages C++, JavaScript, PHP, HTML, CSS

Web React

Databases and tools MySQL, Git, Docker, XAMPP, VS Code

Creative Photoshop, After Effects, Premiere Pro, video editing, color grading

INTERESTS

Gaming, making short gaming videos, and building small games.
